Where Is Polish Defector?

What has the CIA done with Michael Goleniewski, the Polish national who was working for the KGB in Poland, who defected to the United States? And why hasn't his information been brought out in the newspapers?

Perhaps Goleniewski knows

too much about the State Department and the CIA, both of which he has stated are infiltrated by Communists, and the Administration fears that such information, if made public, would hurt in an election year.
